Solid Waste and Recycling Division

Athens Services is the City's exclusive waste hauler that provides all residential and commercial waste and recycling collection services in the City of Redondo Beach.

To request a service, please call Athens Services at (888) 336-6100. When you call, the representative will provide their name and work order/confirmation number associated with your request. Please record this information. It will be helpful should you need the status of your request at a later date.

Need to order new or replacement curbside carts?
If you need to order gray, blue, or green carts please call Athens Services at (888) 336-6100. Or, you can send an e-mail request to ContainerRequest@redondo.org and let us know what color and size you need and whether it is broken, missing, or if this is a new residence.

Once your order is placed, it can take up to (5) five business days for delivery. Please leave any unwanted carts at the curb for pickup by Athens Services. You can continue to use the carts while they are out at the curb; Athens Services will remove them even if they are full. If you have alley service, please leave the carts in the alley and specify alley access in your request.

If you are a multi-family resident or business and require a replacement dumpster, please call Athens Services at (888) 336-6100. Once your order is placed it can take up to (2) two business days for delivery.

If you have questions, please contact the Solid Waste and Recycling staff at (310) 318-0686, ext. 4193.
The Solid Waste Division is responsible for complying with the Integrated Waste Management Act of 1989 (AB 939), which mandates that the City reduce its waste by 50% from the 1990 generation level. Once the reduction is achieved, it must be maintained. The City of Redondo Beach has enacted numerous programs to meet and exceed the mandated 50% diversion.

**Athens Services**, the City's exclusive franchise waste hauler, is the largest recycler in the Los Angeles County. Athens is committed to helping Redondo Beach divert 75% of its waste from the landfill through expanded recycling programs and the Residential Curbside Compost Collection Program.

**Redondo Beach will now be competing for one of the best recycling rates in the State of California.**

The City's recycling programs include residential curbside recycling and residential curbside compost collection as well as multi-family and commercial bin recycling collection services.

All schools in Redondo Beach participate in the school recycling program and many have organics and worm composting programs too. The City provides ongoing education for all of these programs to residents, businesses and schools.

In addition, the Solid Waste Division is responsible for managing and ensuring that Athens Services complies with the Solid Waste Handling Services Agreement. The Agreement requires Athens Services to collect the refuse, recyclables and the organics recycling streams. The Solid Waste Division manages all complaints and service issues relating to Athens Services.

If you have any questions or concerns, please call the Solid Waste and Recycling staff at (310) 318-0686, ext. 4193.
